W.F.LINEBERGER FOR CANDIDATE

GLENDALE REPUBLICANS ARE PLEDGING THEIR AID TO NOMINEE FOR CONGRESS

LONG BEACH CITIZEN

UNSOLICITED BALLOTS CAST IN CONFERENCE IN BEHALF OF W. E. EVANS

With the nomination of Major Walter F. Lineberger of Long Beach as the Republican candidate for congress in the ninth district to succeed the late Charles F. Van de Water, which was accomplished late yesterday at the general conference in Pasadena, Republicans of Glendale—and throughout the district—are today pledging their support to him.

Major Lineberger is president of the Guarantee Bond & Mortgage company of Long Beach and former president of the Long Beach harbor commission. He is an overseas veteran. His nomination resulted on the fourth ballot. Three hundred and sixty-eight accredited delegates voted and a majority was necessary to nominate. L. L. Lostutter of Pomona and W. E. Evans of Glendale withdrew after the third ballot and their votes went to the Long Beach man. Major Lineberger was placed in nomination by Attorney R. J. Swaffield of Long Beach.

Here Is Way Vote Went

The ballots were as follows: First, Montaville Flowers, 133; L. L. Lostutter, 48; Major Lineberger, 84; Jonas M. Killian of El Monte, 42; W. E. Evans, 57; second ballot, Flowers, 149; Lostutter, 34; Lineberger, 100; Killian, 30; Evans, 54; third ballot, Flowers, 156; Lostutter, 32; Lineberger, 130; Killian, 24; Evans, 23; fourth ballot, Flowers, 165; Lostutter (who had then withdrawn), 1; Lineberger, 190; Killian, 11. A total of 185 was necessary to a choice.

Major Lineberger served two years in the engineering corps in France during the world war and was injured in action. He entered the army in 1917. He is a graduate of the university of Texas and has traveled extensively in Mexico and Europe. He is 39 years of age and the father of two girls and one boy. He established his residence in Long Beach seven years ago, arriving there from Old Mexico, where he was engaged in civil engineering. He recently retired from the presidency of the Long Beach Post of the American Legion. He is a member of the Kiwanis and Republican clubs of Los Angeles.

Honors Given to W. E. Evans

While W. E. Evans, city attorney of Glendale, was not an announced candidate in the strict sense, many friends of his throughout the district insisted that he be placed in nomination before the conference. His nomination was made by John Robert White of Glendale and seconded by Mrs. J. H. Braly, also of this city, and by a delegate from Eagle Rock City.

While the fourth ballot was being taken Mr. Evans took the floor and released his supporters. A few minutes later Mr. Lostutter did the same thing, both men telling their friends to cast their ballots for the best man and support whoever received the nomination. Their remarks were loudly cheered.

"I did not ask for the support of any delegate in the district," said Mr. Evans to The Evening News, aft-

(Continued on Page Four)

BOTH PROMOTED

HERMAN NELSON, D. H. SMITH APPOINTED MANAGERS OF BANK BRANCHES HERE

Herman Nelson, who has been assistant manager of the Glendale avenue branch of the Los Angeles Trust & Savings bank, and D. H. Smith, who has been assistant manager of the Brand boulevard branch, have been appointed as manager of their respective branches. A. R. Eastman, who was manager of the two branches, has been relieved at his request.

Mr. Nelson has been connected with the banking institution here for about nine years. Mr. Smith has been in service here for about five years. Both stand high with the business interests of the city and, too, among citizens generally. Their promotion to the management of the institutions will be received with satisfaction by their many friends.

Former Iowa Residents Attracted to Glendale and Purchase Property

Mr. and Mrs. J. M. Cotton, E. D. Cotton and daughter, Miss Hallie Cotton, who came to Pasadena from Exire, Iowa, about six months ago, have decided to locate in Glendale and have purchased the Guy Pearson property at 722 East Lomita avenue, moving in yesterday.

The Pearsons are moving to the R. Bainbridge property at 807 South Maryland avenue.

Mr. and Mrs. Bainbridge have purchased property at 634 Howard street from A. R. Spindler, who is moving with his family to Fresno.

ENJOY PROGRAM

YOUNG PEOPLE GIVE NUMBER OF PLEASING EFFORTS AT HOME OF INSTRUCTOR

The pupils of Miss Campbell entertained their parents and a few other friends at their teacher's home, 316 East Dryden street, last Thursday evening.

The program with which the young people delighted their audience follows:

1. (a) Up in the Sky, Baa, Baa Black Sheep (Diller and Quail); (b) America, A Happy New Year (duets with her mother), (Diller and Quail), Lorraine Masters.
2. The Elephant and the Mouse (Florence Maxim), Rose Bagley.
3. (a) The Chase (b) The Swallow (Burgmuller), Cornelia Hollingsworth.
4. On the Summer Sea (Hannah Smith), Martha Jones.
5. The Giants (James H. Rogers), Genevieve Burr.
6. The Village Musicians (Von Wilm), Charles Burr.
7. An Indian Lodge MacDowell), Rea Bagley.

Another much-enjoyed feature of the evening was two solos by Mrs. W. L. McNutt, of 125 West Windsor road, "Birthday," by Cowan, and "Love's Mystery," by Curran.

Refreshments and a social time were enjoyed at the close of the program.

RECOVERS CAR

AUTOMOBILE STOLEN BY TWO MEN FROM JOHN KIMBLE FOUND NEAR RIVER

John W. Kimble, who was held up and robbed in Sycamore canyon of his watch, $40 in money and his automobile by two men, one dressed as a sailor and the other as an army officer, is today in possession of his car. Mr. Stoddard, a real estate dealer with an office on a tract close to the southern city limits of Glendale, telephoned Mr. Kimble that the stolen machine was in a sand bed near the Los Angeles river. It is presumed that the thieves abandoned the car there and boarded a street car for Los Angeles.

CHOSEN CAPTAIN

B. CHANDLER IS ELECTED AS LEADER FOR GLENDALE'S FOOTBALL SQUAD

B. Chandler, who played fullback this season on the Glendale high school's championship football team, was yesterday selected as captain for the school's team next season. The election occurred during a meeting of the student body of the school, the members of the football squad doing the voting. Chandler was formerly of the Franklin high school of Los Angeles. He is considered a good fullback and is expected to captain a strong team for Glendale next season.

NEW RAPID FIRING PISTOL.

GENEVA, Switzerland.—The Swiss army authorities have carried out experiments with a new long automatic pistol capable of firing fifteen bullets per second a distance of 320 yards. The weapon is easy to manipulate.

CONVICT SELLS WARDEN.

OSSINING, N. Y.—One prisoner at the East View penitentiary, the "prison de luxe," made $29 from produce he raised in a garden inside the prison walls and which he sold to Warden McClellan.

BRICKLAYER AS MAYOR.

GRANTHAM, Eng.—George Ribinson, a bricklayer for thirty-six years, has been chosen mayor of Grantham. He is a prominent local labor leader.

STUDENT PLAYS MERIT PRAISE

DECIDED TALENT IS DISPLAYED BY HIGH SCHOOL PUPILS IN STAGING OF THREE

GIFTS WELL SHOWN

AMATEURS CLEVERLY DRILLED AND PRESENTATIONS PROVE COMPLETE SUCCESS

Real merit, careful training and decided talent were shown in the three one-act plays which the student body of the high school presented last evening to an audience that filled the auditorium.

"The Florist Shop" in which romantic but shrewd Maude, the shopgirl, brought Mr. Jackson, "the human savings bank," to the point of marriage after a fifteen years' engagement to his loyal fiancee, is a clever, entertaining comedy. Norma Niblack, as "Maude," was the typical shopgirl, chewing gum, exaggerated coiffure, affected walk and all. She played her part with inimitable drollery and a keen insight into the character she was portraying.

Henry, the clerk, was exceedingly well done by Walter Kohl, who was a practical foil for romantic Maud.

Tom Lyon as Slosky, the Jew proprietor of the store, proved himself an accomplished character actor. His make-up was perfect and his dialect was remarkably good.

Ida Wilbur played most creditably the "maiden lady of uncertain age," with mincing gait, self-conscious poses, and the fading beauty of "hope long deferred;" and Mr. Jackson was very good as the tightwad lover who learns to appreciate his faithful fiancee only when he thinks some one else may win her.

Rare Gifts as Emotional Actress

Esther Ralston has rare gifts as an emotional actress; this was shown last evening in her beautiful portrayal of the character of Pierrette, the dainty little dancer in love with Pierrot, in Oliphant Dawn's "The Maker of Dreams." Not only her acting, but her voice and her graceful ease on the stage proclaim her natural genius for the work.

Joe Rhodes did very good work as Pierrot, the singer and the dreamer, taking his part with the irresponsi-

GIVEN SURPRISE

HARRISON W. AUGUSTUS, WELL KNOWN G. A. R. MAN, HAS BIRTHDAY PARTY

Harison W. Augustus, prominent G. A. R. man of Glendale, who resides at 203 West Los Feliz road, was seventy-one years old on Wednesday, December 15.

Mr. Augustus has gotten sort of used to birthdays, so it didn't occur to him to make much fuss over this one. His daughters, however, had ideas on the subject that differed from his.

Not being able to work out their plans under the very nose of their keen-witted father, they enlisted the aid of his nephew and niece, Dr. and Mrs. J. D. Camerer, of 311 West Garfield avenue.

About 5 o'clock on the birthday anniversary, the doctor called for Mr. and Mrs. Augustine and drove them to his home for a 6 o'clock dinner.

About half past seven, guests began to drop in; and it was not until a goodly number of them had arrived that Mr. Augustine realized that he was the honor guest of a surprise party.

Cards, music and social chat were the diversions of the evening; a beautiful reading whose theme was the action of a brave soldier on the battlefield was contributed to the evening's entertainment by Mrs. Nellie Reynolds, a talented elocutionist sojourning in Glendale. Mrs. Reynolds is a girlhood friend of Mrs. Camerer's.

Mr. Augustus was overcome by the honor shown him in this surprise-celebration of his birthday, but managed to rise to the occasion and do his share of the entertaining, as a birthday-child should.

Refreshments, of course, were a feature of the evening's pleasures, which were shared with Mr. and Mrs. Augustine by Messrs. and Mesdames Fred Pence of Pasadena, Rawson of La Habra, sons-in-law and daughters of the honor guest, Mr. and Mrs. John Stratton, cousins from "back East," who are wintering in Glendale; Mr. and Mrs. Davis of Eagle Rock, Mrs. Nellie Reynolds and Miss Tyner.

HARRY BROLASKI FOUND GUILTY BY JURY

(Special Service to Glendale Evening News)

SAN FRANCISCO, Dec. 18.—Harry A. Brolaski, well known throughout the United States as a broker, follower of race tracks, author and politician, and Douglas Newton were found guilty today by a jury before which they were tried for violation of the prohibition laws. A third man tried with them was acquitted. They were accused of having conspired to withdraw liquor illegally from bonded warehouses.

MACHINE GUNS TO QUELL MOB OUTBREAKS

(Special Service to Glendale Evening News)

INDEPENDENCE, Kansas, Dec. 18.—Machine guns were mounted at strategic points around the court house here today as National Guard troops watched to prevent further outbreaks of race trouble here. Noble Green, negro accused of the murder which started the race, was spirited out of town today and taken to a jail in a nearby town. Motor cars were held in readiness to rush troops to protect the negro in case efforts were made to lynch him.

FAVORS ASSOCIATION OF NATIONS PLAN

(Special Service to Glendale Evening News)

MARION, O., Dec. 18.—President-elect Harding would be breaking faith with the American people to enter a League of Nations which would set up a superior governing body, Senator James Reed, Missouri, democratic irreconcilible, said here today. He indicated, however, that he believed an association of nations organized for conferences clarifying disputes might be helpful toward preventing war.

MAY REDUCE GREECE TO THIRD RATE POWER

(Special Service to Glendale Evening News)

PARIS, Dec. 18.—Great Britain and France have agreed to a plan whereby they and Italy will simultaneously withdraw their ambassadors from Athens, leaving only charges d'affairs to look after their interests, the French foreign office announced today. This action, which would reduce Greece to a third rate power in the eyes of the three big European nations, is one of the steps designed to indicate the allies' opposition to restoration of King Constantine.

STRIKE AND BOMB EXPLOSION TOGETHER

(Special Service to Glendale Evening News)

CHICAGO, Dec. 18.—A bomb explosion shattering all the windows in an apartment building, ushered in a strike of janitors in 1000 buildings here today. The strike was called against one firm of real estate agents who are alleged to have given the janitors "unfair treatment." No one was injured in the blast.

EMERGENCY TARIFF BILL FOR FARMERS

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 18.—The framing of an emergency tariff bill on agricultural products was started today by the house ways and means committee. The duties, Chairman Fordney said, will be so high as to virtually prohibit importations.

CUT IN WAGES MAY RESULT IN STRIKE

(Special Service to Glendale Evening News)

DETROIT, Dec. 18.—Detroit today faces a street car strike as a result of an announcement by the Detroit United Railways company of its intention to cut employees' wages.

JOHN LEWIS AGAIN HEADS MINE WORKERS

(Special Service to Glendale Evening News)

INDIANAPOLIS, Dec. 18.—Incomplete returns today indicated John L. Lewis has been re-elected international president of the United Mine Workers of America.

ASKS RECEIVERSHIP FOR BIG TIRE CONCERN

(Special Service to Glendale Evening News)

COLUMBUS, O., Dec. 18.—A receivership of the Goodyear Tire & Rubber company of Akron, Ohio, was asked in a suit filed here today by a stockholder.

FOR HOLIDAYS

MISS MARJORIE IMLER HERE FROM BERKELEY, REMAINING TILL NEXT SUMMER

Miss Marjorie Imler, daughter of Mrs. D. H. Imler, 336 West Park avenue, returned yesterday from Berkeley, and will remain until January, when the next semester begins at college.

Mr. and Mrs. Eugene Imler arrived this morning from Bakersfield. Mr. Imler will return tomorrow and then come down to spend Christmas here.

HAS PASTORATE

REV. EDWIN H. WILLISFORD IS IN CHARGE OF CHURCH AT HOUSTON, TEXAS

Friends in Glendale have received announcement of Rev. Edwin H. Willisford's acceptance of the pastorate of the First Congregational church of Houston, Texas. Dr. Willisford has been pastor of the First Congregational church of Glendale for the past nine years.

LOS ANGELES, Dec. 18.—The official weather forecast for tomorrow: Generally cloudy.

COUNTY HEALTH OFFICER HELPS

HOLDS CONFERENCE HERE AND AGREES THAT RED TAPE BE CUT IF NECESSARY

CARE OF PATIENTS

SUPERVISOR DODGE IS ASKED TO GIVE ASSISTANCE IN WORKING OUT PLAN

In response to a letter from T. W. Watson, city manager, asking what arrangements could be made with the county regarding the care of cases of contagious diseases in Glendale that might require isolation, Dr. J. L. Pomeroy, county health officer, yesterday visited Glendale for a conference with Mr. Watson.

Dr. Pomeroy is in complete sympathy with the plan to provide in the county a central hospital where cases of contagious diseases requiring isolation—responsibility for whose care rests upon county or city officials—may be cared for.

The county health officer realizes fully that "red tape" should not be allowed to obstruct the prompt action necessary in cases of this kind, that the public good demands direct, common-sense handling of them, and he is largely responsible for the progress that has already been made toward the working out of a plan that will make prompt action in these cases possible.

Letter Sent to Supervisor

As a result of the discussion of Manager Watson and Dr. Pomeroy yesterday, a letter explaining the situation, its present drawbacks and its possible solution, was sent to Supervisor Dodge.

Meanwhile, the case of Dr. J. E. Eckles, doughty health officer of Glendale, who put a small-pox patient in the isolation hospital "without benefit of clergy," so to speak, has not been set for trial. The doctor should worry—"he seen his dooty and he done it."

MANY RESPOND

CHRISTMAS TREE DECORATIONS ARE LIBERALLY GIVEN TO AMERICAN LEGION

In yesterdays issue of The Evening News, the American Legion and their auxiliary appealed for Christmas tree decorations for the Christmas tree for Thornycroft boys.

Early this morning Mrs. J. F. McBryde, president of the auxiliary, telephoned this office to ask The Evening News to say in today's issue that so many people responded to yesterday's appeal that the Legion now had plenty of tinsel and tree ornaments.

This circumstance proves two things: first, that the hearts of Glendale people are generous and kindly; second, that The Evening News is widely read in the community.

ANNOUNCEMENT

MRS. EMMA L. HOOK, RESIDENT HERE FOR TEN YEARS, IS BRIDE OF J. K. SMITH

Announcement is made of the marriage of Mrs. Emma L. Hook, of Glendale, and James Kenneth Smith, of Long Beach, at the home of the officiating clergyman, Rev. William F. Manley, of Los Angeles, December 15th.

Mr. and Mrs. Smith will make their home in Glendale, where Mrs. Smith has lived for ten years, and where she has a wide circle of friends.

WHITES WARNED

NOT WANTED IN TOWN, STATES W. SNYDER, IN REFERRING TO PLACE IN OKLAHOMA

W. Snyder, 117 South Brand boulevard, related the following interesting bit of news: While aboard a train passing through Redbird, Oklahoma, he noticed a sign on the railroad station, "White man, don't let the sun set on you here." This town, which has a population of about 1500, is composed entirely of negroes. There are many towns in Oklahoma, Texas, and the southern states, in which negroes are not allowed, but this is the first town from which white men are barred," says Mr. Snyder.

CONSIDERATION GIVEN PROBLEM

SEVERAL MATTERS IN REGARD TO SEWERAGE DISCUSSED BY CITY TRUSTEES

SEEK INFORMATION

NO ACTION IS YET TAKEN FOR INSTALLATION IN BUSINESS SECTION

Installation of a large cesspool in the alley of business property at the northeast corner of Brand boulevard and Colorado street will not be permitted, city officials have decided, until City Engineer Hill has passed upon the proposed structure.

The city trustees have decided that when cesspools are constructed in alleys, they must be deep enough and strong enough to sustain the weight of heavily loaded trucks. The present difficulties in the business section over cesspools is causing the city officials, it is declared, to attempt to see to it that, in the future, some of the trouble, at least, may be avoided.

Relative to the request for the cesspool, T. W. Watson, city manager, sent the following communication to the trustees:

"The owners of the business property at the northeast corner of Colorado street and Brand boulevard have made application for the location of a cesspool in the alley in the rear of this property. Inasmuch as there seems to be no suitable location for additional cesspools on this property, we would recommend that permission be granted."

Before granting permission, the trustees instructed the city engineer to see to it that the proposed cesspool is placed deep enough in the ground and is of sufficient strength to resist the weight of heavily laden trucks that might use the alley.

No Action Is Taken

Consideration was also given by the trustees to the proposal that a sewage disposal system be installed in the heart of the business district of the city.

City Manager Watson reported that pursuant to authorization of the board a meeting was held in the council room Wednesday evening, December 15, to discuss with property holders, business men and others interested in sewage disposal for the business district plans and ways and means of securing a sewage disposal system that would take care of the most congested portion of the business district until such time as a general sewage disposal system might be installed for the entire city.

"After a general discussion," reported City Manager Watson, "of the entire subject of sewage disposal and a detailed explanation by Mr. Olmsted of the special plans for sewage disposal system in business district, a motion prevailed unanimously requesting that petitions be prepared for the installation of a sewage disposal system in accordance with plans recommended by Sanitary Engineers Olmsted and Gillelen for the six blocks extending north on Brand boulevard from Colorado street to Wilson avenue; these petitions to be accompanied by detailed plans and estimates of cost. We respectfully recommend that sanitary engineers

(Continued on Page Four)

PROVES SUCCESS

FIRST MUNICIPAL CHRISTMAS TREE IS FULLY ENJOYED BY 1600 PEOPLE

Glendale's first municipal Christmas tree celebration was a grand success, fully 1600 residents of the city taking part in the merry celebration last night on the municipal playground on Magnolia avenue.

From the top of the gorgeous tree, twenty feet high, shone the bright star; twinkling little red and green lights illumined the glittering decorations and the gifts that Santa Claus later bestowed upon the five hundred children who were gathered about the tree and the great bonfire.

The program was carried out as announced in yesterday's Evening News. The singing of "The Holy City" by a quartette composed of Mrs. E. B. Moore, Mrs. E. E. Harwood, Mr. Rowley and E. E. Harwood was a very beautiful feature of the occasion.

Dr. Joseph Marple led the community singing, the assembled multitude taking great pleasure in singing "Jingle Bells," "The Old Oaken Bucket," "Annie Laurie" and other old-time favorites.

PERSONALS

Mr. and Mrs. Frank S. Kay, of Louise and Maple streets, leave tomorrow for their ranch at Compton.

T. M. Brown, 355 West California, had seventy-five feet of one-half-inch garden hose stolen from his place.

The Royal Arch Masons of Ventura and their ladies are to be the dinner guests of the Glendale chapter this evening.

Friends of Mrs. C. L. Canfield, 519 Oak street, will be pleased to learn that she has returned from the hospital and is getting along nicely.

The dairy conducted by A. B. Clement, 1321 North Pacific avenue, has been purchased by Luttge Bros. of Burbank and moved to that city.

George H. Haven, member of the editorial staff of a San Bernardino newspaper, was in Glendale yesterday for a brief visit.

Mrs. E. H. Botsford and Mrs. F. E. Allen entertained at a luncheon on Thursday at the Allen home on West Lomita. Covers were laid for twelve.

Art Waite, a student at Throop college, Pasadena, will be the week-end guest of Robert Holland, 209 Arden avenue.

Mr. and Mrs. Harry Powers and son, Harry, Jr., are spending the week-end with Mr. and Mrs. F. J. Rogers of Los Angeles.

Mrs. A. P. Knight of 1305 East California street has as her guest her nephew, H. M. French, of Washington, D. C., who will spend the winter here.

Mr. and Mrs. Lorimer Johnston, of the Nicoles apartments, Maple and Louise streets, are in San Bernardino today on business connected with the moving picture industry.

The Evening News this morning received a letter from American Legion, Glendale past No. 127, with a check for $5, Joseph A. Wilson being treasurer of the local post.

C. F. Parker of Glendale went to a lodge meeting in Los Angeles recently and returned with a box of apples and a ham which were awarded to him because he was lucky in picking out numbered paddles.

The James Hoffman residence at 1124 East California street has been sold and Mr. and Mrs. James Hoffman and Mr. and Mrs. Clarence Hoffman are moving today to Los Angeles.

Mr. and Mrs. S. B. Morse, 145 South Everett street, have been entertaining a number of eastern visitors during the week, including Mrs. Lottie Wright of Milwaukee and Robert C. Clark of Chicago.

Miss Lila Shea, 1608 South Brand boulevard, has as her Saturday dinner guests Miss Helen Pope and Allen Pope of Hollywood, Miss Lila Webster, Gordon Clayton and Jamie Shea of Glendale.

Mr. and Mrs. L. R. Mellus of Los Angeles, and Mrs. Frank Lowther of White Water, Kansas, who is spending the winter in Glendale, were the dinner guests of Mr. and Mrs. W. Worthington, 335 North Maryland avenue, Thursday evening.

E. H. Kerker subscribed $5 to the fund being raised to have Glendale represented by a float in the Tournament of Roses parade at Pasadena several days ago, but by error his subscription was not noted with the others until today.

Mrs. R. A. Campbell, 1002 East Orange Grove avenue, whose husband passed away in November, leaves December 23 for St. Louis with the body. She will be accompanied by her daughter, Mrs. E. Cravens, and grandson.

Mr. and Mrs. Charles Elisperman of Sixth street and Grand View avenue, who motored to San Francisco two weeks ago, returned on Wednesday. Their daughter, Mrs. Oscar L. Cowan, came down from the northern city with them to spend the holidays here.

A report was received at police headquarters yesterday from Hugh Showalter, 602 East Broadway, of the theft of about forty candy flips. He believes this was the work of boys. A wire hook, fastened to a stick, was found, with which the candy was pulled to the front so they could reach it.

Chapter B. A., P. E. O., met at the home of Mr. and Mrs. Charles Toll, Kenneth road, and entertained the P. I. L.'s at a turkey dinner last evening. About forty were present. The evening was spent in playing bridge, five hundred and bunco. Decorations were of holly, poinsettias and a Christmas tree, which was used as the center piece for the large dining table. The hostesses for the evening were Mrs. Charles Toll, Mrs. Charles Guthrie and Miss Leta McCoy.

A few days ago a representative of The Evening News found five people out on the North Verdugo road across from the Ross packing house who have no shelter but that of a very small tent. The family consists of a father and mother and three children, whose ages range from ten to fourteen. They motored down from Woodland, near San Francisco. The head of the family, a carpenter, hoped to find work in Glendale or in this vicinity. He had so far been unsuccessful in his quest and could find no house in Glendale whose rent he could afford to pay.

IT'S QUEER!
that December, the time of year when men have more need and calls for money than in any other month—for taxes, Christmas, etc.—should be the best month for the life insurance man, yet such is the case!
The principal reason, I think, is that the spirit of giving and doing for others is IN THE AIR and when the thought of providing for the comfort of the family in ANY emergency, is presented, it finds an easier lodgment than at any other time. This year is no exception. What more beautiful gift for the whole family than an Endowment Policy? There is still time.

Life Insurance
The Endowment Policy
No better means of saving exists than by investing in an Endowment policy, which combines protection with investment.
Premiums are payable for a specified number of years, and the amount of policy is paid to insured at the end of the period if he is then living. But should he die after having paid one premium, the amount of policy is paid to his heirs, and payment of premium ceases.
For the unmarried man or woman without dependents, who should save during the most productive years of their lives, this policy is particularly desirable.
Decide on how much you should save each week, and I will be pleased to tell you how much insurance it will pay for.

FAMOUS CONSERVATORY GONE.

The celebrated horticultural conservatory on the ducal estates at Chatsworth hall, near Manchester, England, collapsed recently — as surely destroyed by the world war as any French or Belgian structure on the western front, says Popular Mechanics Magazine. The glass house was erected in 1836—40, and served as a model for the great Crystal palace still to be seen near London. It was itself of no mean size, measuring, as it did, 277 feet long, 123 feet wide and 67 feet high. Forty thousand panes of glass formed the arching walls and roof.

There are practically no flies in the city of Panama and scarcely any in the canal zone, according to Lieut.-Commander Arthur T. McCormick, U. S. N., chief health officer of the Panama canal. This is because all waste and garbage are removed every day.

Mexico has a tribe of Indians whose language is limited to about 300 words and who cannot count more than ten.

SCHOOL PLAYS

EXCELLENT TALENT SHOWN BY HIGH SCHOOL PUPILS IN THREE SUCCESSES

(Continued from Page One)

ble abandon of the strolling player. Thomas McNary, as the manufacturer of dreams, interpreted this fantastic, imaginative character with the tender dignity it demanded.

"Suppressed Desires" by Susan Glaspell and George Cram Cook is a comedy crammed full of fun, and all three of its characters were exceptionally well taken.

Dorothy Jane Bolt, as Henrietta Brewster, an enthusiastic follower of the new psychoanalysis fad, was the true faddist from the minute the curtain rose till it fell on the final scene. Her portrayal of the enthusiast who carries an idea to the extreme—until it hits home—was natural and true to life, showing careful observation and thorough study.

William Farner as Stephen Brewster, her husband, an architect tormented to distraction by his wife's rigorous probing of his dreams, was equally natural and intelligent in his portrayal of his part, and Eva Green as Mabel, Henrietta's younger sister, was naive and charming.

School Orchestra Plays Well

The three selections by the high school orchestra were played with their wonted good taste and correct technique, and the singing of the Girls' Glee club was a pleasurable feature of the evening's entertainment.

The costuming of the little plays was unusually good, and the stage settings were perfect in every detail. The young players show not only real talent, but also the capable, sympathetic training of their teacher, Miss Mona C. Gardner.

That the dramatic section of the senior class appreciate the privilege of her direction and teaching was evidenced last evening by their calling her to the stage and presenting her with a beautiful basket of flowers.

The girls who acted as ushers were distinguished by chic hats of ribbon in the school colors, red and black.

NEW FIRM HERE

NOVEL PLAN OF LISTING OF PROPERTY IS OFFERED TO GLENDALE RESIDENTS

A new realty firm under the name of the Glendale Realty and Information bureau is announcing the opening of an office on East Broadway the coming week. Their plan is to charge a nominal sum for listing property with price and this list is open to all buyers. No commission is charged. They claim this system gives the buyer an opportunity to learn comparative values, gives him a large list to select from and the seller the greatest number of prospective buyers.

NEW BAKERY

DOWD'S BAKERY AND LUNCH ROOM IS NOW OPEN IN R. L. KENT BUILDING

Another new and select business is opening in the new Roy L. Kent building today.

Dowd's bakery and lunch room, at 134 South Brand boulevard, makes its bow to Glendale with a complete line of the celebrated Van De Kamp Holland Dutch Baking company's goods.

Toothsome coffee cakes, buttered bread "that made mother stop baking," fruit cake, pies and pastries for which this Dutch baking company is famed, are among the delectable things Dowd's carries.

WHY EDISON INVENTED BULB.

According to a friend, Thomas A. Edison is of the opinion that it was anger that first turned him toward inventing the incandescent light. How it happened is related by a friend.

That was of course in the early days, and Mr. Edison was then quite the inventor that one reads of—poor, enthusiastic, never sleeping. He lived in a small house, innocent of anything approaching a laboratory; scientific devices were in every room, and all the money went for experiments. Then one day came the crisis in the guise of the collector for the gas company. He had been to the house often, but Edison, hardly heeding his calls, had waved him away, saying: "Don't bother me."

On this last call the collector's instructions were peremptory. He must turn off the gas.

"But, man," protested Edison, "I can't stop this experiment tonight. I'll pay the bill, of course. I didn't know about it. I must finish this work without interruption."

But this appeal had no effect upon the collector, and the light went out.

"That night, as I sat helpless in the darkness," says the inventor, "I swore that I would put the gas company out of business. I haven't quite done that, but I did the best I could."

Seaweed, though not the diet of an epicure, is, when dry, richer than oatmeal or Indian corn in nitrogenous constituents, and takes rank among the most nutritious of vegetable foods.

Laundering Distinction Into Men's Dress
A beautifully finished shirt front, snowy collars and cuffs are the finishing touches that give to evening clothes the air of distinction that all men crave and all women like to see in men.
Immaculate linen for men, not only for evening wear, but for everyday business use is our especial pride. Have you ever noticed how much longer even your soft collars keep clean when laundered here than when done at home?

CITY'S RIGHTS

RAILROAD LAYS CLAIM UPON PROPERTY NOW IN USE AS COUNTY HIGHWAY

The Southern Pacific Railroad company claims that the city of Glendale is encroaching upon its property at Sepulveda station.

The city of Glendale believes that the railroad company is not exactly correct, for at the last meeting of the board of city trustees T. W. Watson filed the following communication on the matter:

"In regard to proposed license agreement submitted by the Southern Pacific company, under date of November 18, and attached hereto covering what they term an encroachment of San Fernando on their right of way at Sepulveda station, we beg to report as follows:

"We have through the city engineer's office investigated this matter and it seems that there is no dedication of record of the San Fernando road at the location referred to. This portion of San Fernando road, however, has been used for road purposes for over thirty years. The county road department has constructed a macadam roadway thereon which has been traveled for more than five years and if there is no dedication of this roadway of record it certainly has been dedicated by public use and the city is entitled to more than an easement such as is proposed by the Southern Pacific company. It will be noted that in this proposed easement, the company makes reservations that if taken advantage of would render the location practically useless for road purposes."

The city of Glendale, judging by expressions by its officials, proposes to continue use of the highway and, to that end, the whole matter, at the suggestion of Trustee Stephenson, has been placed in the hands of W. E. Evans, city attorney.

FOR CONGRESS

LOCAL REPUBLICANS PLEDGE THEIR SUPPORT TO MAJOR WALTER F. LINEBERGER

(Continued from Page 1)

er the conference. "I was tendered the support of various delegates from different sections, but in each event I stated I was not a candidate.

"The support given me in the district was spontaneous on the part of those who believed I was qualified to fill the office."

Plans Aggressive Campaign

When the result of the final ballot was announced Major Lineberger was called to the platform, where he made a brief speech of acceptance. Among other things, he said that he felt to the full extent the responsibility placed upon his shoulders and that while it had not been placed there by his own seeking, he would nevertheless try to live up to all the expectations of the district. He paid a high compliment to the unsuccessful candidates, declaring that he believed the platform had held during the day some of the best congressional timber in the United States. He expressed the opinion that the best brains of the world, being in southern California, had been singled out and offered to the ninth congress district. He said he would make an aggressive campaign, and that he knew he'd have the Republicans of the district solidly behind him.

Resolutions Are Passed

Before any names were placed in nomination, the committee on resolutions offered several resolutions which were adopted. One calls upon congress to immediately place an embargo upon foreign lemons. Another asks southern California legislators to use their efforts to amend the primary law so a candidate can only be nominated by the party in which he is registered. The conference stood with bowed heads for one minute, out of respect for the late Mr. Van de Water, and then adopted a resolution commending his exemplary life. A copy is to be sent to his widow.

A pool to assist in the financing of the live stock industry of the country is being formed by leading bankers of Chicago. The capitalization will be $30,000,000.

PLANS ROUTES

TEMPORARY ROADWAYS TO BE CONSTRUCTED BY CITY, IS SUGGESTION OUTLINED

The Southern Pacific Railroad company will be requested by the city of Glendale, through T. W. Watson, city manager, for permission to construct and maintain two temporary roadways for traffic over the company's tracks at Brand boulevard as it approaches the city limits to the east.

In reporting on the matter to the board of city trustees, City Manager Watson makes the following statements:

"Referring to road crossing over Southern Pacific tracks at Brand boulevard, of which we submitted a partial report the 2d instant calling attention to the advisability of providing for transferring the north bound traffic from the west roadway of Brand boulevard as it approaches the city limits of Glendale at this crossing to the east roadway, we find that the city has acquired by the terms of license agreement between the Southern Pacific Railroad company and the former city of Tropico an easement for two forty-foot roadways over the Southern Pacific crossing at this location providing for the continuation of these two roadways as they are now improved through the city of Glendale across the Southern Pacific tracks to the Los Angeles city boundary. In addition to the improvement of these two roadways it will be necessary to provide at least temporary roadways connecting them on either side of the Southern Pacific tracks so as to provide for transferring the north bound traffic from the west to the east roadway of Brand boulevard, as suggested in our report of December 2.

"We would therefore request authorization to apply to the Southern Pacific company for permission to construct and maintain these two temporary roadways with the understanding that the expense thereof will be borne by the city of Glendale."

Two and one-half million farmers are now using automobiles and are making substantial savings in time and money as a result. There is a car for every six persons in Iowa and Nebraska, although there are only 401 persons in those states whose income exceeds $25,000.

SEWERAGE PLANS

SEVERAL MATTERS IN REGARD TO DISPOSAL TALKED OVER BY CITY OFFICIALS

(Continued from Page 1)

be instructed to prepare plans, specifications and estimates as requested."

No formal action was taken by the trustees at Thursday's meeting and, it is presumed, the city officials may be waiting to receive a formal petition from interested property owners in the proposed district.

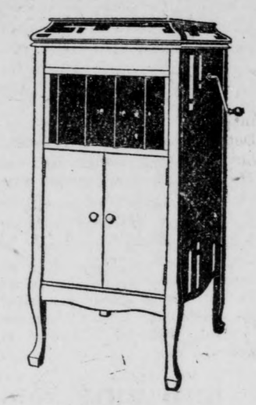
Information Being Sought

During the course of the last meeting of the city trustees, City Manager Watson made the following report:

"At a meeting of the Verdugo Woodlands Improvement association held in the council room Wednesday evening, December 8, for the purpose of discussing ways and means for the installation of a sewer system for Verdugo canyon, a motion was carried unanimously in favor of the formation of a municipal improvement district as outlined in our report to your board on the 2d instant to vote bonds for the purpose of constructing a main sewer and sewage disposal plant as set forth in report to which we refer. We would therefore respectfully recommend that Olmsted & Gillelen, sanitary engineers, be authorized to prepare plans and specifications therefor and to submit estimates of cost thereof."

As the result of the discussion that followed, it was decided by the trustees, on motion of Trustee Stephenson, that W. E. Evans, city attorney, should investigate the legal questions as relating to the terms of the engineers' contract and make a report to the board before any further action was taken in the Verdugo improvement.

Make This a Musical Xmas!



In the selection of a suitable gift for the family, discretion must be used in selecting something that will appeal to all—something for every taste and preference.

Why not buy a phonograph of standard make? We are agents for the leading makes of national repute.

It costs no more than the ordinary phonograph. They play all makes of records at their best, combined with distinctive styles and cabinet finishes, which make it a seasonable and appreciated gift.

Phonograph records make appropriate gifts, yet inexpensive, ever lasting remembrances of the Christmas-tide.

Another appropriate gift of lasting charm is a player piano. Not only are you contributing to the permanent enjoyment of the entire family and friends but it never ceases to be appreciated.

A phonograph or piano carries with it an atmosphere of joy and thanksgiving for every member of the household and moreover it lasts a lifetime.

We carry a full line of Musical Instruments, as well as Sheet Music. The newest and standard Player Rolls can also be obtained from our extensive Musical Library.

COME IN NOW AND MAKE YOUR SELECTION WHICH WE WILL GLADLY RESERVE.

Sunday Services at the Churches

CHRISTIAN AND MISSIONARY ALLIANCE

Meetings every Tuesday and Thursday, 7:30 p. m. Gospel Tabernacle, 310 E. Chestnut Street, corner of Louise. Full Gospel—Jesus Christ—Saviour, Sanctifier, Healer and Coming King.

FIRST METHODIST

Corner Wilson and Kenwood. Rev. Clyde Monroe Crist, D. D., pastor. Sunday School (graded) 9:30. Prof. A. W. Tower, superintendent. It is a great school. We want fully 600 present on Sunday. Christmas sermon at 11 o'clock. Subject: "Opening the Doors to the King of Glory." Class Meeting, 12:15. Junior League, 3:00. Intermediate League, 6:30. Epworth League, 6:30. Subject, "Dickens' 'Christmas Carol.'" A reading given by Mr. J. B. Clarke. This has been a great success elsewhere. Brotherhood, 7:00. At 7:30, Christmas Cantata by C. B. Hawley, "The Christ Child." This will be rendered by the great vested choir under the direction of Miss Isgrig. Mrs. H. W. Randall, organist. The morning music will include the following: Prelude, "Christmas Offertory" (Grison); Anthem, "Star of the Orient" (Shelley); Solo, "Holy Night" (Adams), Miss Isgrig; Postlude, "March" (Gaul). Wednesday evening there will be a Christmas Cantata (Mack and Mills) "Santa's Success." Seventy children will present it under the direction of Mrs. Miller. Bring gifts for the poor and for institutions that care for needy folk. Gifts of candy to all members of the Sunday School. Come to "A Church that Seems Like Home."

CATHOLIC

East Elk, near Adams street. Mass at 8 o'clock. Sunday School at 9. Mass at 10:30. Sermon in English. Everybody welcome. James Stephen O'Neill, Pastor.

CHRISTIAN

Corner Louise and Colorado streets. Clifford A. Cole, minister. Morning worship and communion at 10:30 a. m. Sermon topic, "Make Room for Christ." At night the Bible School will give its "White Gifts" program. "The Homelike Church."

NEW THOUGHT CENTER

at Masonic Temple, Sunday, December 19, 1920. Sermon, "Affirmation in the Relative," at 11 a. m. Sunday School, 9:45. All welcome.

CASA VERDUGO M. E.

Rev. E. O. Thayer, pastor. 11 a. m. Sermon, "The True Christian Spirit." 7:30 p. m., "Preparing a Way for Christ's Coming." Epworth League, 6:45. Special music by the choir. All cordially invited.

PRESBYTERIAN

"Adam's Christmas" is the subject of the Sabbath evening sermon, 7:30. Organ recital, 7:15. A Christmas service of song of more than ordinary interest will be rendered. Morning worship at 11 o'clock. Sermon topic, "The Christ of Christmas." The pastor, W. E. Edmonds, will preach both morning and evening. Sabbath School, 9:30. H. L. Finlay, superintendent. C. E. meetings at the usual hours. Strangers cordially invited to all services. "Church of the Lighted Cross." Corner Broadway and Cedar street. Musical program—Morning: Prelude, "Offertory on Two Christmas Hymns" (Guilmant); Response, "Come and Worship the New Born King"; Quartet, "Joy to the World" (Wilson); Offertory, "Adoration" (Guilmant); Contralto Solo, "The Birthday of a King" (Neidlinger), Mrs. Fannie Marple Retts; Quartet, "Those Holy Voices" (Emerson); Postlude, "Yuletide Chorus." Evening: Organ Recital; "Melody on Old Christmas Carols" (Bailey); "Prelude to the Cantata, 'The Coming of the King'" (Dudley Buck); "Holy Night" (Adam); Song Service with Hymn by Quartet (by request); Contralto Solo, "Bethlehem" (Goines), Mrs. Albert McCreery Draper; Selection by Sunday School Orchestra (selected), Mr. Allen McDaniel, Director; Offertory, "Christmas Offertory" (Guilmant); Duet, "The Angel" (Rubenstien), Mrs. Zetta Gibbons and Mrs. Fannie Marple Retts; Saxophone Quartet (selected); Soprano Solo, "Jerusalem" from St. Paul (Mendelssohn), Miss Elsie Cox; Quartet, "Song of the Angel" (Lorenz); Violin Solo, "Seventh Concerto of De Beriot," Miss Hazel Linkogel, accompanied by Mrs. Pearl Curran; Postlude, "The Chorus of Shepherds" (Lemmens).

ST. MARK'S EPISCOPAL

The Rev. Dr. Cornell, officiating. Beginning on November 28, the first Sunday in Advent, Dr. Cornell started a special course of four sermons on "The Home." Fourth sermon, Sunday, "December 19, "The Home—The Christian Training of the Child." Services, Sundays, 11 a. m. A cordial invitation is extended to all.

FIRST BAPTIST

Ernest E. Ford, pastor. Sunday School at 9:30. Roy L. Kent, superintendent. Classes for all. Public worship at 11. Sermon theme, "Who Is My Neighbor?" The young people will give, at the 6:30 hour, a little Christmas play, in the basement of the church, to which every one is invited. Praise and preaching service at 7:30. Sermon theme, "Almost or Altogether?" Prayer meeting on Wednesday at 7:30. Reception of new members. On Thursday evening the Sunday School will hold its annual Christmas exercises. Special music, vocal and instrumental; recitations by the children; and the beautiful story of "Why the Chimes Rang," will be given in pantomine. Everybody is invited.

CHRISTIAN SCIENCE

First Church of Christ, Scientist, corner Maryland and California avenues. Service Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, Dec. 19, "Is the Universe, Including Man, Evolved by Atomic Force?" Sunday School at 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 South Brand boulevard, open daily except Sunday and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

ADVERTISEMENTS

Sir Ernest Shackleton, explorer, is planning another icy expedition, this time to the North Polar regions.

CHEVROLET RACER WINS BIG PRIZE

FISH & TARR, LOCAL AGENTS, RECEIVE WORD REGARDING RECORD IN SPAIN

Word was received this week by Fish & Tarr, local Chevrolet dealers, of the success of the Chevrolet racing car at Barcelona, Spain, piloted by Senor Carlos Pizzaza.

Over a rough road extending from Barcelona along the shores of the Mediterranean Sea, inland over an almost impassable road, and back to the starting point, three days was the time necessary, so bad were the roads.

The racers averaged thirty-five kilometers an hour and for the first half day the contesting cars were neck and neck until the steep and long grade of the San Hilario Hill was reached. Here is where the little Chevrolet proved its worth and took the lead which it held until the finish.

Senor Pizzaza by skill of his driving earned 565 points, while the second car to finish, also a Chevrolet, had a grand total of 562 points. The second Chevrolet was piloted by Count Francisco Cepeda and was also awarded a gold medal.

Senor Pizzaza is one of the veteran automobile racing pilots of Spain and in 1917 he won the Cataluna handicap with his Chevrolet and also the 1919 event.

Windshields were first installed on passenger automobiles when women motorists complained that the strong breezes disturbed their hair.

SOME HINTS GIVEN ON TIRE TROUBLES

MONARCH AUTO SUPPLY OWNER MAKES STATEMENT REGARDS BADLY PLACED TUBES

"Many cases of tire trouble are due simply to the fact that the tube has not been properly inserted," says Mr. Butts, of the Monarch Auto Supply company. "The first thing to do when putting in a tube is to give the bridge nut at the base of the valve stem above the metal plate, a tightening twist with a pair of pliers. When the tube is inside the casing jar the tire a few times to seat it firmly. After the tire is mounted and fully inflated fasten securely the rim nut, which works around the valve stem above the rim. Care in fitting the tube will save many a pinch and flat tire later on."

REAR AXLE OIL LEAKAGE

The first step in determining the cause of oil leakage onto the brake bands is to see whether or not the level of oil in the differential housing is correct. There need be no more oil than is necessary to give the ring a gear dip of about an inch. If, however, there is much more than this amount of lubricant, the excess will work its way back to the brake bands and cause slipping. Sometimes, of course, the leakage is due to worn washers in the tubes ends.

The automobile industry in France is considered the greatest sufferer due to the presence of so many foreign-built cars obtained from old war stocks.

LARGEST BOILERS FOR FORD'S PLANT

EIGHT FULL GROWN MACHINES ARE DRIVEN INTO THEM AS DEMONSTRATION

The largest power house boilers in the world are now being installed in one of the Ford Motor company's Detroit plants. To demonstrate just how big they really are, eight full-grown Ford cars were driven into one of them recently.

The cars were lined up just outside the building, then, one at a time, they were driven inside, caught up in a rope sling, hoisted to the second floor and driven into the huge boiler.

Each boiler is enclosed in brick settings, with specially designed furnaces for burning pulverized coal. This in itself is a new feature in this kind of a boiler. While some experiments have been made with pulverized coal, yet, no boiler has ever before been specially constructed to use it. But Henry Ford departs easily from precedent in power-producing plants, and once satisfied that pulverized coal is practical, he ordered special equipment designed and built for the new power house.

Eight Tons of Coal Per Hour

The boiler furnace will consume eighteen tons of coal an hour. The coal, which is ground so fine that it passes through an unusually fine screen, is fed into the furnace from near the top. Inside, it is caught up by an air current which keeps it in circulation, and it is burned while in suspension. It touches neither the sides nor the bottom of the furnace, until as ashes it drops underneath into an ash pit.

From the time the coal for these boilers leaves the Ford mines in West Virginia and Kentucky until it is carried away as ashes it is never handled by hand. All of the operations are handled mechanically—dumping, pulverizing, carrying to the bins, stoking, even to carrying the ashes away in small dummy cars.

A battery of eight of these huge boilers is being built; one is already completed and operating successfully, says Jesse Smith, local Ford dealer.

CROSS CONTINENT TRIP IS ENJOYED

ESSEX CAR STANDS UP WELL IN LONG JOURNEY, SAYS EX-MICHIGAN MAN

"First the worst, second the same, last the best of all the game. As we used to say when we were kids," said J. S. Price with reference to different methods of crossing the continent.

Mr. Price's old home was in Jackson, Michigan, but some time ago he decided to live in southern California and taking the train from Jackson he made his abode at Van Nuys. Then came the inevitable homesickness the easterner so often feels on his first trip to the west, and Mr. Price returned to Jackson by train on another route.

Once "back home," however, he drew comparisons and decided to return to California. Meantime, while in Jackson, he had purchased an Essex motor car, and drove around that section of the country 5,500 miles. He decided on this third trip across the continent he would tour back to the land of sunshine with his Essex and so he did. The trip as he took it, was 2,815 miles.

Mr. Price concluded that the last way was the "best of all the game." "Of course there was lots more excitement and much more interesting," he wrote. "Then, too, the trip was so healthful and comfortable as compared with the confinement of the train, that I would not travel any other way than by Essex since this experience."

CARE IN USE OF WATER

Indiscriminate use of water of forty to fifty pounds pressure on the running gear is not so detrimental when skillfully done. But as many car owners do it, it is harmful because dirt, grit and other corrosive matter is forced into the wheel bearings. Often, too, water lodges in crevices about the bearings and produces rust, which ultimately affects the proper operation of these important parts.

U. S. BUILDS CHEAPEST CAR

At the fourteenth motor exhibition recently held at the Olympia, in London, more than eighty types of automobiles were listed by the British. The United States was second with forty-one cars. France has twenty-six exhibits, the Italians ten and the Belgians, Dutch and Swiss one each. America had the distinction of showing the lowest-priced automobile.

DANGEROUS TRIP TAKEN BY WOMEN

THROUGH BLIZZARDS, FACING DANGERS, ESSEX CARRIES THEM TO SAFETY

"Fearless? No, just common sense," said Mrs. A. C. Pierce modestly, the other day when she and Mrs. E. J. Cook passed through Glendale and were credited with being two most fearless women.

These two ladies have just toured in an Essex via the Lincoln highway through blizzards, over heavily snow-banked grades, and adobe mud roads from Hamilton, N. J., the country home of Mrs. Pierce, to the Pacific Coast.

"I think we do not fear danger more than the average man," continued Mrs. Pierce, "but with our Essex touring car there was really nothing to fear. Without a dependable car, I admit, there would have been many tight places. Time after time we pulled through mud to the hubcaps. I bought this Essex because of its wonderful across country records, and it surely lived up to its reputation. I think it is the only car for rough driving."

On this trip of 5568 miles, including side trips, Mrs. Cook and Mrs. Pierce had many thrilling adventures and they both are of the opinion that one way to enjoy life is to take a motor car with ability to stick to it and really perform.

AUTO LICENSES

STATE BUREAU IS ARRANGING TO CARE FOR BIG RUSH ON FIRST OF YEAR

Initial preparations for the 1921 rush of issuing the new automobile license plates are under way at the state motor vehicle department. The office personnel was augmented recently by the addition of more workers.

Although the 1921 license fee is not due until February 1, some automobile owners are under the impression the payment must be made by January 1, or sooner. Many checks already have been received at the headquarters.

Charles J. Chenu, superintendent of the department, requests that no remittances be sent at this time, for they will only cause confusion, he says. He is preparing a letter, giving all details concerning the new registration, and this letter will be sent out to automobile owners.

FORGET YOUR TIRE GAUGE?

If you are real fussy about your tires, and have left your tire gauge at home, take out the foot rule that presumably you always carry in your tool chest, and measure the distance between hub cap center and the thread of the properly filled tire. If the distance is more than an inch shorter, it needs more air. If it is longer, let a little air out.

Always make it a point to see that your lamps in the headlights are in good condition. When they begin to dim, replace them and at the same time clean the reflectors.

GUESS WHY THEY DID IT

American tourists entered Montreal, Canada, this year in more than 6,000 automobiles. An amount of over $10,000,000 it is estimated was expended.

Early applicants for 1921 automobile license tags in Pennsylvania are requesting special numbers to match their house, postoffice box, lodge or other numbers.

HOOSIERS DON'T LIKE THEM.

Under the Indiana state law, an automobile thief can be convicted of grand larceny, punishable by imprisonment from one to fourteen years.

MARYLAND IS BUILDING THEM.

During the present year the Maryland state highway commission has constructed 130 miles of roads, at a cost of $5,000,000.

BRITISH MARKET INVADED

On the highways of Great Britain there are found commercial motor vehicles from Belgium, Canada, France, Germany, Italy, Switzerland and the United States.

South Bend, Ind., provides free camping facilities for automobile tourists. Pottawattomie Park, which is the largest, offers free parking space, free water and free stoves.

All Acknowledge This Essex Appeal

More than by any other factor, men have been decided in their preference for the Essex by the endurance and reliability which unmistakably sets it apart from other light cars.

The patented Essex motor, which accounts for its endurance, and which made possible such feats as four times breaking the Transcontinental record, is exclusive to the Essex. No other builder can use its ability, its speed, its capacity in the hills. And only in the large, costly cars will you find performance at all comparable to that which this motor gives the Essex.

There is no longer need for anyone to accept a second-choice car, because of inability to secure reasonably prompt delivery of his preference.

Selective buying again rules the motor market. With competition restored to a basis of merit, and the question of prompt delivery no longer a factor favoring less wanted cars, is there any car in the Essex field which matches its appeal?

A Few Essex Endurance Proofs

Four Essex cars, each break Transcontinental Record, between San Francisco and New York

3037 miles in 50 hours, official record, world's greatest endurance mark.

Same Essex stock car, in 3 tests travels a total of 5870 miles in 84 hours, 22 minutes, averaging more than a mile a minute.

Sets world dirt track mark, 1261 miles in 24 hours.

Sets world's 24-hour road mark of 1061 miles.

CHAMBERS & FELTS

THE NASH SIX

The Nash Six with Perfected Valve-in-Head Motor is well established in the front rank of America's leading motor car values.

In the hands of many thousands of owners and driven under varying road conditions in all sections of the country, the Nash Six has been found to possess that high standard of perfection generally attributed to it at the time of its introduction to the public.

The Nash Six Valve-in-Head Motor is now conceded to be the most powerful type of motor known. And like its motor, the Nash Six throughout, from its long flat springs to its luxuriant body represents advanced engineering and unusual value.

When you buy a Nash you get full value for your money

THE NASH SIX

BUSINESS IS GOING ALONG VERY NICELY

THOMAS G. WIDMYER ASSERTS THAT HEALTHY CONDITION BOUND TO PREVAIL

"Bankers, in putting on the breaks in the early fall, saved the United States from what might have been a very serious condition," says Thomas G. Widmeyre, local Nash dealer. "In fact, the situation might have been such that even the federal reserve system with all its powers could not have prevented serious consequences. So when you hear people criticising bankers for their attitude they are not speaking fairly.

"Isn't it better that we should all weather a temporary slump and stay on top than go over the precipice in the spring into chaos from which it would take some years to recover?

"Had the bankers given every business man all the money he wanted everyone would have gone out and bought everything in sight, and the result would have been such an overstocked condition that wild cutting of moral prices would have led to demoralization. Instead we find many lines with not too heavy an overload because of the curtailing of production in practically all lines of business. This, of course, has meant a temporary loss to a great many individuals and corporations, but the loss has been spread over the country so well that we can easily absorb it. Now we are getting down to earth.

Business Is Picking Up.

"Business having become stabilized, is picking up. By that I mean it is not going to return to normal overnight, or in a week, but it is coming along naturally, for we are now getting our breath. When spring rolls around the over-supply period will be behind us and conditions will have become more normal.

"People are now recovering from that state of mind in which they felt the country was going to the dogs, and it was therefore incumbent upon them to hold on to every dollar they could get. In the past few months I have traveled about the country a great deal and I have found that the public is more at ease, with the result that a buying period has started again. This means healthy business conditions."

SERVICE STATIONS IN BORNEO JUNGLE

RATHER RIDICULOUS AND YET MANY MOTORISTS ARE NOW LOST IN DEEP JUNGLES

"A USL service station in the jungles of Borneo? That would sound rather ridiculous, wouldn't it?" said Mr. Knox, Exide service station representative for the Glendale section, in the course of a discussion of storage battery problems today.

"The fact is," he continued, "that too many motorists in our own country are still in the jungle on matters pertaining to the care and upkeep of their storage batteries. They are wandering about aimlessly in the darkness of battery misunderstanding. They only see daylight when they accidentally stumble upon a USL service station signboard.

"Perhaps it may be better from the viewpoint of some service stations to keep them groping blindly jungleward, but this is not the case with me, nor with the service stations I represent. The automobile driving public should have, at least, a fair knowledge of the storage battery. They know their motors, why do they neglect their batteries?

Not Many Know Difference

"There's the battery plates, for instance. There isn't a motorist in five who knows the difference between a machine-pasted battery plate and a hand pasted plate, nor the relative staying qualities of each. Nor is there one in forty who understands why a plate will buckle or how to "hydromete" his battery. Most of 'em get flustered when battery troubles occur and make record time to the service station.

"We are glad to meet 'em, of course. But take it from me—I'd sooner see a motorist, for his own comfort, know more about that little black box attached to his car."

22,000-Mile Tread

And Why They Are Exceptions

Worn Miller Tires are often exhibited with some sign like above.

Countless letters also reach us telling such mileage tales.

These are very pleasing. But we don't want users in general to expect miracles from Millers.

Service to Expect

Expect from Millers greater service than from any like-type tire. And 19 times in 20 you will get it.

Expect it to outserve any tire you put opposite, and it almost invariably will. Expect twice the mileage tires gave a few years ago, and they will doubtless do still better.

Expect tread wear 25 per cent better than from others and you'll not be disappointed.

But don't expect that Millers, under all conditions, can match some exceptional mileage.

Why Mileage Varies

A Cord Tire gives vastly greater service than a Fabric Tire.

An oversize tire will vastly excel a tire that is undersize. Care, load and roads affect tire service greatly.

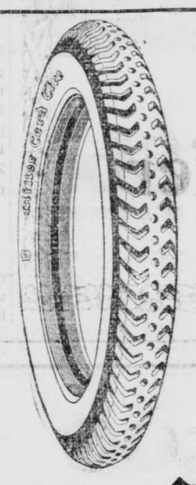
Millers are uniform tires. That is a major reason for their supremacy. But uniform tires will vary with conditions.

Tread Patented

Center Tread smooth with suction cup, for firm hold on wet asphalt. *Geared-to-the-Road* side treads, mesh like cogs in dirt.

With 3-Ton Loads

Miller Cord Tires were tested by Ray C. Carpenter on a 22-passenger bus, averaging a 3-ton load each trip. The first tire on a rear wheel ran 23,700 miles without a blowout, and was never removed from the wheel. The second was punctured by railroad spike at 5,000 miles, but when repaired ran 12,000 miles more without a blowout. On a front wheel the Miller ran 22,000 miles without a blowout. All were passenger-type tires.



What Our Tests Show

We run tires at our factory ten million miles a year to make these service tests.

These are radical tests. Tires are run constantly, night and day, and under heavy load. We want quick comparisons.

On our testing machines Miller Cords average 15,000 miles, and Fabrics about half that.

But these are not mileage records. We are running Miller Tires against high-grade rivals to prove that Millers last best.

Be Satisfied With This

You will get on a Miller an exceptional tread. It is by 25 per cent the best tread made.

Not one Miller Tire, made under present methods, has ever come back with the tread gone.

You will get uniform tires. Every Miller Tire is signed, both by maker and inspector. Every man knows that a faulty tire means a penalty for him. And faults are extremely rare.

You will get greater mileage than from any tire you put on the opposite wheel. That is so nearly universal that we will stake your favor on any single test.

But you will get the best tire built today. There are hundreds of thousands who know that.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.

PERSONNEL NOT TO CHANGE, IS CLAIM

RESIGNATION OF PRESIDENT OF GENERAL MOTORS NOT TO MAKE DIFFERENCE

Norman De Vaux, president of the Chevrolet Motor company of California, says that the resignation of W. C. Durant as president of the General Motors corporation will in no way effect the personel of the Oakland factory.

Pierre Dupont, president elect of the General Motors corporation, is a member of the firm of E. I. Dupont de Nemours & Co., large shareholders in the General Motors corporation.

W. C. Durant, who resigned his post as president of the General Motors corporation, is retained as a member of the board of directors. He is father of R. C. ("Cliff") Durant, vice-president of the Chevrolet Motor Company of California. It is quite possible that W. C. Durant will spend part of his scheduled vacation in California, after which he will devote his time to the new Durant corporation recently organized to handle securities.

In state government departments of Georgia, 687 motor vehicles are in use for official business.

SHORT CUT ROUTE IS BEING SOUGHT

FINANCIAL AID IS DESIRED FOR NEW ROAD; BENEFIT TO AUTO TOURISTS

Taxpayers and officials from Mono and Inyo counties, seeking the financial aid of southern Nevada communities for the opening of a short cut between Tonopah and Owens valley, returned home satisfied with promises that the funds would be raised by individual subscription, as the Nevada laws preclude counties from appropriating funds for use outside their respective districts.

The line laid down by the visitors showed that by spending not over $1,000 a first-class desert road could be opened to shorten the distance at least sixty miles for the journey between any point on the Midland trail and Los Angeles. Four ugly summits would also be eliminated, leaving the easy climb of Mount Montgomery on the state line as the only ascent worthy of note. Even this is of such a slight grade that the visiting delegation came through that stretch on intermediate in six minutes.

This route will also appeal to northern Nevada after the roads over the Sierras are closed by snow, as travel from as far north as Reno would save time and gas by taking the new route between Coaldale, Nev., and Basalt, thus getting a clear run down the Owens valley instead of busking snow over Westgard pass and in going via Big Pine.

NEW RECORD MADE FOR FORD AUTOS

PRODUCTION IN OCTOBER IS NEW MARK; ALMOST HALF OF CARS ARE FORDS

According to Jesse E. Smith, 400 East Broadway, Glendale dealer for the Ford automobile, during October 99,967 Ford cars were made in the Ford factory at Detroit and shipped out to join the four and one-half million already in service. This is the highest record ever reached by the Ford company, or any other company. Thirty-three more cars would have brought production up to the 100,000 mark for the month.

October 26 was the banner day, having brought forth 4,688 cars. This was also a record breaker. It means that one car was completed every eighteeen and one-half seconds for the entire twenty-four hour day. The Ford estimate for this year is one and one-quarter million cars and trucks.

Over Four Million Built

It was during the fall of 1909 that Henry Ford placed on the market his now famous Model "T"—the car that brought Ford unquestioned supremacy in the motor car industry. To date, more than four and one-half million of this one model have been built and distributed to the four corners of the world. Of models prior to the "T" thirty thousand were manufactured.

During 1910, 18,644 Ford cars were built, a tremendous output for those days. Yet in ten years from that time Ford production has grown to more than one million a year.

Almost half of the motor cars in the world are Ford cars. In the United States and Canada, a little better than one-half are Fords.

"TOOL PUSHER" CAR PLANNED

The Wichita Motor Company of Wichita Falls, Texas, is preparing to put on the market a special car to be known as "the oil field tool pusher." It will carry three passengers and 1000 pounds of equipment.

"Exide"

THE SIGN OF

Battery Excellence

The EXIDE is the result of thirty-one years of experimenting, with no expense spared to bring forth a battery that is dependable, sturdy and enduring.

Let me explain to you why the EXIDE is BETTER.

Register your battery (any make) here for regular inspection. We can help you get better service out of it.

Autolectric Service Co.

A. S. KNOX, Prop.

113 W. Harvard. Gl. 1918-W

GREAT DEMAND FOR U. S. BUILT AUTOS

HUGE AMOUNT IS SPENT FOR AMERICAN CARS, FIGURES FOR YEAR INDICATE

All the world is riding in American automobiles. It has demanded them at the rate of $1,000,000 a day during 1920. The total value of automobiles and accessories exported from the United States in the calendar year 1920 will approximate, says a statement by the National City Bank of New York, $365,000,000.

The word "approximate" is used because we can only estimate the exports for the month of December. The very latest figures of exportation justify the statement that the value of the automobiles and accessories, including chassis, separate parts, tires, engines, etc., passing out of the ports of continental United States during the current year have averaged up to this time a full million dollars a day.

In Demand Everywhere

Where do the automobiles go? Everywhere! The number of countries, colonies and islands to which they were sent exceeds 100. From Azerbaijan to Zanzibar and Baluchistan to Jugo-Slavia, the people of all races, colors and shades of political opinion clamor for the American automobile. Persia, Siam, Madagascar, Samoa, the Canary Islands, Liberia, British Honduras, Iceland and the Belgian Congo, are among the countries, colonies and islands to which machines were sent during the current year in which the export record will be the "biggest ever." The $365,000,000 worth of automobiles and accessories exported in the calendar year 1920 will bring the grand total of exports of this character from 1900 to 1920, $1,250,000,000, and the total number of machines to 650,000.

As a result of inadequate car supply on railways in the United States, 440,730 motor vehicles were delivered during the first nine months of 1920 to buyers over the highways under their own power to parts as far from the factories as 1000 miles and over. This amount of motor vehicles is equal to 130,000 carloads.

Green and Red Lights

A green running light on one side of the machine and a red one on the other lends an aristocratic air to a machine. Packer & White have equipped some of their new Studebakers with these colored running lights and the effect is charming.

By the way, this firm got in another assignment of Studebakers this week and they are still able to make immediate deliveries to their customers.

IT'S BY EXPANSION NOT BY EXPLOSION

TANNER & HALL TO HOLD A SERIES OF INSTRUCTIVE LECTURES

What do you know about an automobile engine? What makes the motor go? The explosion of the gasoline, did you say? So you are wrong in answering the first question put to you. Expansion causes the motor to run, just as it causes a steam engine to run.

You are going to have a chance to learn this and many other things about an automobile engine if what has been hinted at materializes, and the editor of this section believes it will. Tanner & Hall are making arrangements to have a series of lectures and illustrations given under their auspices. The lectures will be given by Alvin E. Sanders, who was an instructor in the construction and mechanism of aviation engines at Kelly Field during the war and who was highly recommended by the authorities there.

The average automobile owner knows little about his engine and it is for the benefit of these that the public instructions are to be given. While Tanner & Hall handle the Buick car, these instructions will apply to all automobile engines made. The exact date of the opening of the lecture course will be announced in a day or two.

Mr. Sanders will illustrate his talks by practical illustrations; for instance, he will prove to his hearers, by occult demonstration, that the motor is moved by expansion, and not by explosion.

DEALERS WAR ON SPEEDERS

Automobile dealers of Cincinnati have joined with the Cincinnati Automobile club and various welfare associations in a campaign to curb automobile accidents resulting from speeding and reckless driving in that city.

PARK-TO-PARK IS ROUTE SUGGESTED

SIX THOUSAND MILE AUTOMOBILE ROAD BOOSTERS URGE SUPPORT OF CONGRESS

Motorists and good roads makers! There's something synonymous in their consideration for the admirer of the great outdoors. If the automobile tourists will draw a rough circle on a coast-to-coast map through the westerly third of the United States, and consider any one of a dozen transcontinental trails leading to it from the east, south and middle west, he will mentally describe a master scenic-key to the people's playgrounds in America.

That's what 150 delegates from eleven western states did in the first annual convention of the National Park-to-Park Highway association recently, in Denver. They shaped the scenic pass key to fit the arboreal lock which the National Park Service and the American Automobile association in Washington have fashioned in order to release millions of workers from every day cares for a journey to their own national park playgrounds.

To Ask Aid of Congress

Congress will be asked to turn the magic scenic-key by appropriating funds for the permanent improvement of this 6000-mile motor way, which depends upon the many transcontinental and other highways for stimulation and seeks harmonious co-operation for co-ordinate development of good roads generally.

The "Master Highway of America;" when hard-surfaced, will represent an outlay of about $100,000,000. John Payne, secretary of the Department of the Interior, and Stephen T. Mather, director of national parks; A. G. Batchelder, chairman of the executive board, and Col. A. L. Westgard, pathfinder for the American Automobile association, have pledged themselves to hold fast the recreational agricultural and industrial wonderlock which a united West has resolved to fit with a master scenic-key consisting of primary roads and improved highways. The departments of war and agriculture are being urged to assist in this nation-wide undertaking.

Any one of the twelve or thirteen transcontinental highways is the stem for this scenic-key loop, which traverses Colorado, Wyoming, Montana, Idaho, Washington, Oregon, California, Arizona, New Mexico and Utah, and embraces Nevada, in connecting Rocky Mountain, Yellowstone Glacier, Rainier, Crator, Lassen, Yosemite, Grant, Sequoia, Zion, Grand Canyon and Mesa Verde national parks.

THEY STILL DRIVE HORSES.

In Mexico there are 8,760 horse-drawn vehicles in Mexico City, as against 6,112 motor-driven cars and trucks.

Ford

THE UNIVERSAL CAR

Fords at the Auto Show

The most complete showing of Fords ever made in Los Angeles will be displayed at the Automobile Show, December 11 to 19, inclusive, at Seventh and Figueroa Streets.

The assembly is a most notable one, including as it does, Sedans, Coupes and Touring Cars in the pleasure car class while in the commercial division will be found Ford one-ton Truck with standard body, and for popular business utility the Runabout.

To this display will be added the Fordson Tractor, already so popular in the agricultural sections, and which is fast entering the industrial fields.

You will find at all times one or more of the following Ford dealers on hand to demonstrate and explain the newest features. In justice to yourself it is urged that orders be placed at this time to insure an early delivery.

Clark & Coberly, 2219 W. Pico—West 6072.
W. D. Dunham, 1250-60 W. Seventh—Wilshire 637.
Fahy-Atterbury Co., 1042 S. Grand—Broadway 1500.

Insist on genuine FORD PARTS

The "Studebaker"

LEADS

In the evolution of the automobile, Studebaker has been a leader in all developments that have been for the benefit of the ultimate purchaser.

In the Studebaker car is perpetuated Studebaker reputation, which for sixty years has stood for high quality, honest dealing and fair prices.

Studebaker reputation precludes the building of cheap cars or the making of substitutions to lower costs, therefore they contain none but the finest materials, including the best known grades of steel, leather, upholstery, finishing paints, tires and accessories.

Studebaker Prices:

Big Six	$2500	Special Six Sedan	$3140
Special Six	2065	Special Six Coupe	3040
Light Six	1735	Special Six Roadster	2065
Light Six Sedan	2435	Special Six Club Roadster	2065

"This Is a Studebaker Year"

LAWMAKERS WILL PASS AUTO LAWS

MANY STATE LEGISLATURES TO CONSIDER MEASURES UPON REGULATING MACHINES

During the coming January some 42 state legislatures will convene at the various state capitals throughout the country and endless waves of impassioned oratory will permeate the walls of legislative halls on their way to a passive public.

A review of past performances of these legislatures indicates that several thousand measures will be introduced this coming winter, involving all known and many unknown phases of motor vehicular transportation. Undoubtedly many good laws and some "weak sisters" will find their way to the statute books, for most assemblymen are honest in their desire to enact equitable laws, but frequently they are required to vote on proposed laws without having the essential facts before them.

An instance in point is a California statute requiring motor trucks on solid tires to present an inch in width of tire surface to the road per 800 pounds of load, at the point where the tire comes in contact with the road.

A solid truck tire is narrower at the point of contact with the road surface than at the base, so that when new it presents less surface to the road than when worn. When it wears down to the surface required by law it has less elastic quality and is obviously more destructive to roads.

In other states the load to be carried is usually computed on the measurement of the width of the tire at its base, but in California the law is based on the measurement at its outer surface, a practice which is at variance with the recommendations of the Society of Automotive Engineers, whose standards of measurement have been considered authoritative for years.

By computing the load on the basis of 800 pounds per inch of tire at its base, the interests of road conservation would be served and the motor truck operator relieved of all liability of unwittingly violating the law.

AUTOMOBILE MUFF IS LATEST

An "automobile muff" has been invented to keep the hands of the motorist warm while driving in cold weather. Securely fastened to the steering wheel is a light but rigid framework of steel; over which the muff of padded cloth or fur is fitted. The arrangement is such that the person driving can operate the wheel with ease.

BUICK

Emblem of Satisfaction

A SAFE investment, a good reliable car to drive is the usual comment among business men regarding Buick. Buick has won the favor of men in business and the professions by its twenty year record of keeping faith.

The roominess and beauty of the new Buick Nineteen Twenty One Cars afford gratifying satisfaction to the entire family, too, in leisure hours.

Re-inforcing Buick reliability is Authorized Buick Service everywhere available.

CHRISTMAS OFFERINGS OF MANY NEW BOOKS AT LOCAL LIBRARY

Beautifully Illustrated Works Are Released to the Public; Varied Assortment of Reading Matter

The Glendale library is making a Christmas offering to the public in the way of new books, beautifully illustrated, which should appeal to the artistic sense and appreciation of everyone. Among the beautifully illustrated volumes are the Rubaiyat of Omar Khayyam, with illustrations by Edmund Dulac; and Raphael Santi, by Edward McCardy, with twenty illustrations in color executed under the supervision of the Medici society.

W. L. George, an English writer who recently visited Los Angeles, in discussing American writers, says that there is something about American literature which is not appreciated, and that is its freedom. American writers are free from conventions while foreign writers are bound to certain conventions.

Many New Books Are Released

Among the many new books which have recently been released are:

"Blind Alley," by W. L. George; an emotional colored book through which runs all the time, together with a passionate protest against the war, a suggestion of what can be done to avoid its recurrence.

"Sister Carrie," by Theodore Dreiser. It is a book which is rich in the interest which pertains to realistic fiction.

"The Enemies of Women," by Blasco Ibanez. In this, Blasco Ibanez's most powerful novel, he presents life in myriad aspects—dazzling, brilliant, colorful, selfish, passionate. Then misfortune stalks into the picture, revealing each character in its true light, barren of artifice and subterfuge. The scenes shift between Paris and Monte Carlo with a glimpse of Russia, and the hero, a man in whose veins flow a strange mixture of Slav and Latin blood. Satiated with the erotic pleasures of society, he gathers about him a coterie of disciples who call themselves "Enemies of Women," but the very name is a challenge. The heroine is a creature of marvelous charm and an infinite variety of moods.

Master of Chain of Newspapers

"Caliban," by W. L. George. Success—some force within Richard Bulmer ruthlessly driving, sped him on to that goal. It gripped him while he was still a schoolboy and carried him tumultuously along until he was the master of a chain of newspapers that could make and unmake statesmen and sway the destinies of peoples. Then came love. Could he use his business tactics with the woman he loved—a woman not easily to be won by any man—could he stifle competition here as he had elsewhere? It is a situation that revels in its full power. This English realist has the faculty of dramatizing big ideas and flesh-and-blood people in a compelling story.

"Undergrowth," by Francis Brett Young and E. Brett Young. There is a wild beauty and strangeness in this story of the building of a great water way in South Wales, a suggestion of the old pagan forces of evil, gathering together to fight the disturbers of their ancient solitudes, which makes this one of the most striking studies in atmosphere in English fiction.

Panorama of American Life

"Twelve Men," by Theodore Dreiser. No short stories nor sketches, but a seething panorama of American life. Everyone will guess who these Twelve Men were and are. The high water-mark of Mr. Dreisler's achievement has been reached in "Twelve Men," which has won more widespread and sincere appreciation than any other of his books.

"Free, and Other Stories," by Theodore Dreiser. The first volume of short stories by the man Arnold Bennett calls America's most distinguished author. These stories depict the various phases of life which Mr. Dreiser knows so well how to handle.

"The House of Lynch," by Leonard Merrick. In many of his books, Mr. Merrick is concerned with the lighter side of that uncertain plane of existence which is called Bohemia. In "The House of Lynch" he may be considered to touch on its more serious side. The book is not a tragedy. In fact, this story of a self-respecting artist who successfully upholds his independence against the degrading influence of great and dishonest wealth, is too much of a triumph of the human soul to be called tragic, but it shows Mr. Merrick in a sterner mood. And here he compels respect where before he may only have compelled admiration or gratitude for pleasure bestowed.

"Autobiography of Benjamin Franklin."

Mystery Story by Carolyn Wells

"In the Onyx Lobby," by Carolyn Wells. It is astonishing how many people can be suspected of a given crime, but you suspect them all one after the other, and out of your suspicions the author creates an atmosphere of suspense and intense interest that holds to the last page.

"The Nervous Housewife," by Abraham Myerson, M. D.

"Wounded Souls," by Philip Gibbs. A truth-telling novel, passionate and fine.

"Mainwaring," by Maurice Hewlett. A study of life in the 80's told with that keen analysis of character and colorful word painting of which Mr. Hewlett is a master. It is a dignified, quietly moving story, without thrills or shocks, written with a delightful display of the novelist's technique, and standing as a worthy successor to the long line of finished and picturesque novels from his pen.

"Christmas Roses," by Anne Douglas Sedgwick (Mrs. Basil de Selincourt). These stories certainly merit the phrase applied to Mrs. Selincourt's volumes, "a perfection of the story-teller's art.

TAX RECEIPTS

THOSE WHO PAID BY MAIL MUST WAIT FOR WEEKS TO RECEIVE ANSWER

Probably there are many property owners in Glendale, having paid their taxes by sending checks through the mail, who are wondering why they have not yet received their receipts. The answer is this:

County Tax Collector Welch's office holds a huge assortment of letters containing checks and it will be several weeks before all receipts are returned. It is estimated that over fifteen thousand pieces of mail have yet to be opened by the force in the tax collector's office.

A large force of clerks is at work recording the payments and as fast as the duty is done, the receipts are sent out. But it will be weeks, it is declared, before the last receipt goes out.

Best Efforts
The average man wants to come into business contact with those who will at all times serve him with their best efforts.. This is our maxim of service

ISSUES CHALLENGE

DYNAMOS CLASS BASKETBALL'S SQUAD WANTS GAME WITH ANY GLENDALE TEAM

The Dynamos class of the Presbyterian Sunday school has begun basketball practice and is developing a strong team.

The Dynamos class is one of the enterprising organizations of the church and enters into sport with all the vim that it uses in other affairs.

When it was decided to form a basketball team, the class resolved that it was to be a strong one. The team has a whole lot of confidence in itself as is shown by the fact that it requests The Evening News to state that the class team challenges any basketball organization in Glendale.

If there is a basketball team that thinks it can give the Dynamos squad a tussle, The Evening News will receive the answer to the challenge and convey it to the Presbyterian church Sunday school players.

REPEAT WORK

EIGHTH GRADE PUPILS ARE REVIEWING THEIR STUDIES; OBJECTION IS MADE

Four per cent of the school children in the eighth grades of schools throughout the state repeated work in 1920 which they studied in 1919, according to the statistics compiled by Sam H. Cohn, statitician of the state board of education.

In the seventh grade the number is six per cent. In the sixth grade seven per cent, while the fifth grade has less than eight per cent of its pupils repeating studies.

These conditions are deplorable, says Cohn, who will urge an investigation into the reasons for so many students "repeating". Cohn will make a survey of conditions in each county and inform county superintendents how their classes stand in relation to other counties.

TREE PLANTING

PINES WILL BE SET OUT IN LITTLE TEJUNGA CANYON DURING THIS WINTER

Half a million pine trees out of a million now growing in the county nursery at Altadena will be planted in the mountains during the rainy season this winter and spring, according to County Forester Flintham. This announcement came in connection with the decision of the board of supervisors to purchase ten acres of land upon which the nursery is located, and which has been held under a lease and option during the past five years.

Extension of plantings in the Sierra Madre watershed from nursery stock of knob cone and coulter pines are to be made in the little Tejunga canyon above San Fernando, where 25,000 trees are now growing; in the Dalton canyons above Glendora, where there are now 50,000 plantings, and in the West Fork of the San Dimas canyon, where there are now 50,000 trees.

The county forester says that although the past year was extremely dry, more than half of the trees set out at these points are in a flourishing condition. If 25 per cent of the trees live, the results are well worth the expense, declares Mr. Flintham.

ISSUES WARNING

INCREASE OF DISTRICTS FOR IRRIGATION RESULTS IS MENACE TO PEOPLE

During the last two years twenty-four new irrigation districts were formed in California, according to the biennial report of the state department of engineering, filed with Governor Stephens. This makes a total of sixty-eight districts with 2,965,783 acres in the state. The bonded indebtedness is $36,004,021.

In commenting on the conflict between irrigation and power interests, the report says:

"There is a desire apparent among electric power promoters to acquire rights on streams far in excess of the potentiality of development likely to be realized for many years."

It is urged that the water resources of the state be more closely guarded in the interests of the people.

According to the report the several uses of water are relative in their importance: first, domestic use; second, irrigation; third, power; fourth, navigation; fifth, mining.

As to the canalization of the delta regions and the building of ship canals to Sacramento and Stockton from tidewater, the report states:

"In the delta regions of the San Joaquin and in the flood basins of the Sacramento valley, most of the levees built in late years were constructed by large dredges floating in the channels they made in excavating earth for the levees.

"All of these dredge cuts can be readily converted into canals for water transportation."

REDUCTIONS

PRESBYTERIAN CHURCH WILL HAVE CUT IN BUDGET, IS COMMITTEE VERDICT

Reduction by approximately one-half in the budget of the church throughout the United States for the next fiscal year beginning April 1, was decided upon by the executive committee of the Presbyterian church. In reducing the budget from $23,000,000 to $12,000,000 the commission, it was announced, was influenced by reports of business and crop conditions submitted by the synodical chairman from all states.

The $12,000,000 decided upon is to cover all national benevolences of the church, exclusive of the $1,000,000 debt in the Interchurch world movement, which the Presbyterians are raising by a special campaign.

MAKE BID FOR BABIES.

In New York babies are to be offered special inducements to become tenants of a row of buildings on the south side of Ninth street, from Fifth avenue to University Place, which are being rebuilt by order of the trustees of Sailors' Snug Harbor. The architects have been instructed to provide storerooms for perambulators near each entrance and to arrange gardens in the rear wherein baby may snatch a siesta under the shelter of a bush.

ENCOURAGING AVIATION.

France's younger generation has been encouraged to use air locomotion by an old lady of eighty-three, says a Paris correspondent of the London Times. She is Mme. Hemery, a charwoman, who lives in the country where airplanes pass every day. It was in 1878 when she first left the ground, when she tasted the delights of ballooning, and, seeing, as she did, the new airbird daily above her, she could not resist trying the new sensation. Thus one day she had saved sufficient money from her meager earnings and took a trip in the air. She did this without the knowledge of her many grandchildren, who were completely shocked when the news reached them. She is in no way perturbed, and is determined as soon as funds allow to try looping the loop.

When one considers the trouble involved in getting peace, he feels that war is not quite so bad as it seemed when it was going on.
